

Google Translate/Microsoft Lens

Allow EAL learners translate websites or to scan documents, newspapers and leaflets to change them to their home language and complete research for projects.

Google Doc/Microsoft Word

Translate Documents or Text using Immersive Reader. For google use the Helperbird add-on

Google Slides/Powerpoint

Use closed captions/present live when speaking to your class to allow EAL students to read what you are seeing either in English or their home language(present live).

Google Sheets

Make a copy of the key Word Sheet (provided during the presentation) to suit the linguistic profile of the learners in your class.

Support & Engage EAL Learners in Business Class using Digital Technologies

Youtube/Screencastify

Use short Youtube clips to help EAL learners understand the subject context & access prior learning.
Use closed captions to further support their understanding.

Canva/Classroom Screen

Provide carefully chosen visuals to help EAL learners understand subject context and instructions during class.

Google Translate/Say Hi

Communicate with parents of EAL learners while allowing them to use their home language.
